

FULL CASSETTE AWNING

Motorized Type

Full Cassette Awning

شباب الكاملة

- Folding chain arms replace traditional cable arms.
- A special mechanism ensures that the entire umbrella is closed perfectly.
- It can cover areas up to 6m wide x 3m wide, with the ability to cover larger areas on request.
- Angle adjustment ranges from 5° to 75°.

- ✓ Italian style full cassette design
- ✓ Provides better protection for the fabric and canopy structure
- ✓ Gray Color

- ✓ Remote control
- ✓ Sensitive connection to wind and sun
- ✓ Lighting (LED)

Wind & Sun Sensor

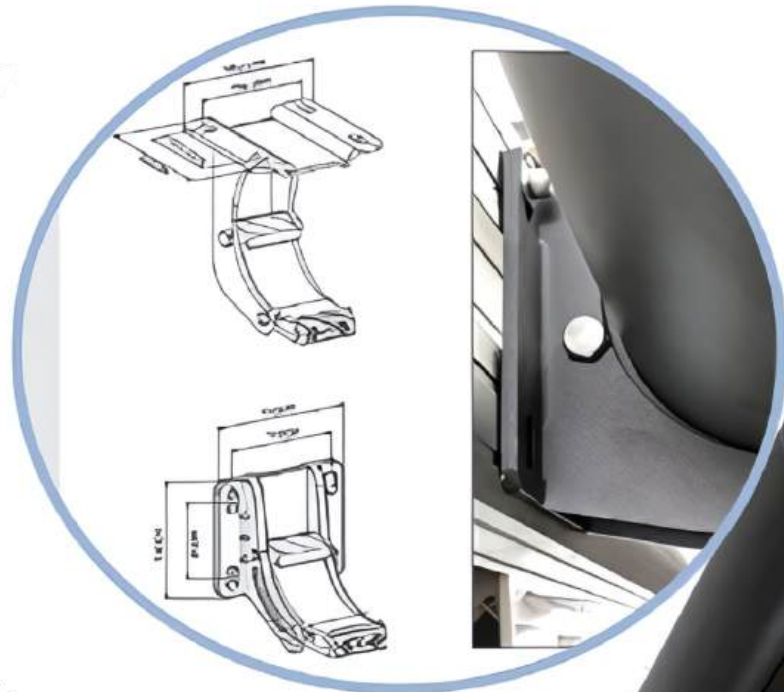

- Connecting a wind and sun sensor/sensor increases the efficiency and functionality of the Awning.
- When strong winds are felt, it closes the Awning automatically.
- Also, when it feels the intense heat of the sun, it automatically opens the Awning.
- With the ability to disable one of the previous functions when it is not needed.

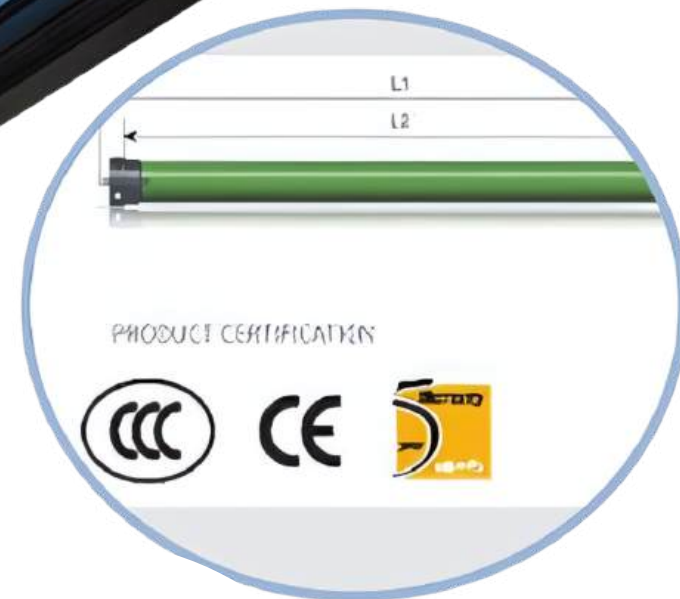

The chain in the arms increases the rigidity and stability of the arms when moving and helps smooth the movement of the umbrella.

Two installation ways
(wall /ceiling)

Durable chain crank arm

ADVANTAGES :

- Heavy Duty Structure with Thickened Arms: It consists of a full corrosion-resistant aluminum frame and a windproof, easy-to-adjust arm.
- Strong and durable folding arm with aluminum front bar to protect balance and prevent rain falling.
- High quality fabric, UV resistant, waterproof, high color fastness, up to 5 years of long-term use without fading.
- Possibility of connecting it to a wind and sun sensor.
- The telescopic arm can be closed several times, smooth, not stuck, the joints are connected by chains, more flexible and durable.
- Can be used for garden, doors, entertainment pavilion, outdoor restaurant and other places.

In addition to the presence of a lighting system in the arms, it helps facilitate movement and handling in dark places.
